

ARE YOU READY TO PUSH A SOCIAL ENTERPRISE?

VOLUNTEER PHYSIOTHERAPIST at Circleg in Uganda (Beginning of September 2022, 2-3 weeks)

WHO WE ARE

CIRCLEG is a Swiss-East African social enterprise endorsing a holistic approach in the provision of lower-limb prosthetics. We develop a high-quality prosthesis designed for and with amputees and prosthetists in low- and middle-income countries. We work with the principles of the circular economy and believe in the power of a team with different backgrounds and experiences. By using recycled plastic in combination with a local supply chain we aim at generating a sustainable solution which has the potential to create a positive impact for people and the environment alike. Currently our team of 8 is working on the finalisation of the product and we will soon enter the production phase. In the beginning/middle of September 2022 we will perform a usability testing of our latest Circleg prosthesis in Uganda and therefore, we are looking for you!

WHO YOU ARE

- A physiotherapist, ideally with experience working with amputees
- A good communicator (fluency in English is required to communicate with amputees and prosthetists in Uganda)
- A positive, curious and motivated person, who loves to work in a vibrant surrounding

WHO WE ARE LOOKING FOR

We are looking for a motivated physiotherapist to join us as a volunteer on our usability testing in Uganda. You will:

- Be part of the final usability testing of the Circleg prosthesis (beginning/middle of September 2022 for a duration of 2-3 weeks)
- Accompany and support amputees during gait training

WHAT WE CAN OFFER

We can offer you an exciting experience with a passionate team, enriching encounters and exchanges with prosthetists and amputees in Uganda and generally, an unforgettable time with amazing people! All costs concerning accommodation, flights, transport and food will be covered by us.

INTERESTED?

Just reach out to us! Send us a message to hello@projectcircleg.com, with a small description about yourself. We are looking forward to get to know you!

Much love,
Team Circleg
